Introduction to CMOS VLSI Design (E158)

Problem Set 1

Harris

THE MOTIVATION FAIRY

IF YOU WORK HARD, YOU WILL GAIN THE RESPECT OF YOUR PEERS.

IF I AVOID THE STRESS OF HARD WORK, I WILL OUT-LIVE MY PEERS.

HARD WORK CAN KILL ME?

IF YOU'RE LUCKY.

1. Do problems 1.3, 1.6, 1.11, and 1.14 from the book.

2. Create your personal web page for E158. We will use the web pages so that everyone at Mudd and at METU can get to know each other. You will also post files on your web page from your final project.

Look in /Charlie/Courses/Eng/E158/www/05. You will find a file named index.html and a bunch of directories. Copy index.html to your directory. Open it in WordPad and edit it. Add a paragraph about you and your interests that would help somebody else get to know you. You may add other links and material as you see fit.

If you are not familiar with HTML, you may find a quick reference about HTML tags at
`http://archive.ncsa.uiuc.edu/General/Internet/WWW/index.html`

Go to the class web page and click on your link. Check that it brings up your personal web page properly.

3. Please indicate how many hours you spent on this problem set. This will not affect your grade, but will be helpful for calibrating the workload for the future.
