

E151 Lecture 1 Handout

What are the online communication norms for this class?

Why are you taking this class?

Why is analog design important even though ADCs and op-amps exist?

What is the final project in this class?

What pedagogical techniques are being applied in this class?

What are the types of assignment in this class?

What are the deadlines in the class? What happens each day of the week?

What most affects your grade? What's the second most important thing?
