29mm Motor Retainer Installation Instructions.

Fits all AeroTech 29mm motor mounts.
May fit other tubes with OD of 1.235"

Step 1.

- Test fit before applying any epoxy.
- Lightly sand the inside surface of the retaining ring to rough it up.
- Should be a snug fit.

Step 2.

- Use J.B. Weld epoxy.
- Apply the epoxy to inside of retainer.
- Slide in place being careful to not get any epoxy on the threads.
- Allow to cure 24 hours before use.
